Career Objective

Passionate Frontend Developer with hands-on experience building responsive and user-friendly web applications using React.js, JavaScript, HTML5, CSS3, and REST API integration. Experienced in developing reusable components, implementing secure authentication, and creating clean, intuitive user interfaces with a strong focus on performance and responsiveness. Familiar with backend development using Node.js, Express.js, MongoDB. A quick learner who values ownership, continuous improvement, and collaborative problem-solving, seeking an opportunity as a Frontend Developer Intern or Junior Frontend Developer.

Education

Bachelor of Computer Technology, JB Knowledge Park
Currently pursuing

Skills

- JavaScript (ES6+), HTML5, CSS3
- Node.js, Express.js, REST APIs, JWT Authentication
- React.js, Vite, React Router, Axios, Responsive Web Design
- Git, GitHub, VS Code, Postman, Netlify, Render, Cloudinary

Projects

Accountra

- Developed a responsive personal finance management application featuring secure authentication and protected routes.
- Built multiple financial calculators including GST, EMI, Income Tax, Percentage, Profit & Loss, Discount, Interest, Loan, Salary, and TDS calculators.
- Integrated REST APIs for authentication, feedback management, and user data.
- Implemented an admin dashboard for user and feedback management.

Full Stack Portfolio CMS

- Built a professional portfolio website with a secure admin dashboard and custom Blog CMS.
- Implemented complete CRUD functionality for blog management, including Create, Edit, Delete, and Publish operations.
- Integrated Cloudinary for image uploads and media management.
- Developed responsive user interfaces using reusable React components.
- Connected frontend with backend APIs following clean project architecture and modular development practices.

SmartAdmin Dashboard | React.js

- Designed a modern responsive admin dashboard using reusable React components.
- Developed analytics cards, tables, navigation, forms, and management interfaces using mock data.
- Applied component-based architecture and scalable frontend development practices.
- Strengthened expertise in responsive dashboard development and modern UI implementation.
